

*bring
your vision
to life...*

The Internet has become the #1 resource for wedding planning. Couples go online to learn more about the vendors that are available for their special day. As a marketing tool, it's the first thing these people see, so it has to be an accurate representation of the vision you have for your company.

An appealing website allows people to connect with you and understand the value of your products & services. Couples want their day to be perfect, and this personal connection will lead to a comfort level necessary to make a buying decision.

Make an outstanding first impression with Terrapin!

A Special Offer for

...help brides visualize their big day!

Elegant Design

Standing apart from the crowd is critical in the wedding industry. With hundreds of vendors battling for brides' attention, you need to make a statement quickly and communicate the quality of your product or service. Terrapin creates websites that are custom designed based on YOUR specifications. We do not work from purchased templates - you can rest assured that you'll have a one-of-a-kind presence on the internet that matches the unique personality of your business.

Drawn Into the Moment

Terrapin makes it easy to create the right atmosphere on your website. Soothing music plays in the background. Eye-catching photos appear, move and breath life into web pages. Visitors are presented with compelling text that speaks directly to them, helping them to envision moments that will last a lifetime.

An Interactive Experience

A beautifully website is great, but the ultimate goal is to get visitors to interact with you. Terrapin provides a variety of online tools that gives couples direct access to your company, and you the opportunity to make them a customer.

- **Portfolios** help couples to visualize the quality of your work
- **Calendars** allow them to view your availability in real time
- **Online Catalogs** let them browse and buy product directly
- **Online Payments** accept credit cards online 24/7
- **Contact Us** forms allow visitors to send a detailed email

become the clear choice!
